We are still working to get you a final draft of the report by COB today. Then we can work out whether it is really possible to do the release on Wednesday. I am skeptical, unless there are no major changes flowing back to Ada and R8. Even then, we still have to notify homeowners, the tribes, and the governor.

But first things first. We will get the penultimate draft out sometime today.

Jim

James Martin
Regional Administrator
Region 8

U.S. Environmental Protection Agency

Will this be in the form of a releasable report?

We are still on track to deliver the QA'd data tables for Pavilion, the QAPP which includes methods and QA, a description of the low yield well protocols EPA followed, and a statement regarding the status of the glycol method by COB today.

How are we coming on the draft report? When will we see the latest version?

Sarah and I are talking to Governor Mead's office this afternoon and want to make sure we are on track to release the report on Wednesday.

Please let us know immediately if will not be ready on Wednesday.

Jim's office will be working with the Region on our comms materials and outreach plan.

Finally, I am scheduling time with Malcolm Jackson tomorrow morning to nail down our FOIA response schedule so we can make final decisions on extending the comment period.
